21 May 1963

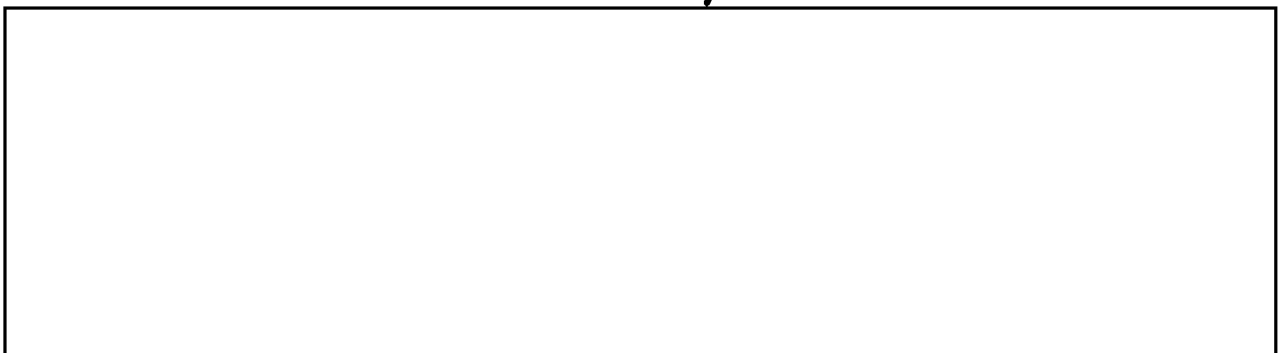

MEMORANDUM FOR: Deputy Director of Central Intelligence Agency
SUBJECT : Research and Development Review Board

1. Per your request, I am making certain that each member of the RDRB and his alternate has all the Agency and DOD clearances needed.

2. Because there is bulky equipment involved in Dr. Tietjen's presentation, he would like to give it on the first floor. Do you object to this? **NO - OK -**

3. At the first RDRB meeting General Strong suggested that the RDRB should keep abreast of important US Government (especially DOD) projects in the S & T and R & D field. Can I assume that this suggestion meets with your approval and arrange for one of the RDRB members to be responsible for this? **Yes -**
